

Before/After School Curriculum

Homework Help:

Family time should be kept free for family. Your child will be given the opportunity to work on their homework at our facility. Experienced staff is on hand to help out and advise when needed.

Snack:

Each day we will have a snack available for kiddos. This is provided by our facility but snack donations are appreciated.

Clubs:

We pride ourselves on offering an array of clubs to give kids a well-rounded experience. Some of the clubs we rotate between on a weekly basis include:

Reading club - Book clubs for adults are all the rage. Kids can enjoy this activity as well with their peers. They can work together to diplomatically decide on books to read and discuss whether it be books assigned at school or extracurricular choices, they can discuss ideas and theories to their hearts' content.

Chess club - Chess is incredibly beneficial in every aspect of life just a few examples include; helps prevent Alzheimer's, it grows dendrites, raises IQ, increases problem-solving, improves spatial skills, improves memory, exercises both sides of the brain, increases creativity and its FUN!

Board Game club - Beyond chess, we have multiple other board games that kids can come together and form groups and strategies to increase their social skills and glean many of the same benefits chess provides.

Coding and technology Club - Kids can come together with their friends and code using our "hacking" computers and ipad library. Programs include Minecraft, Scratch, Scratch jr, various code-able robotics, VR coding and more!

Engineering club - We are stocked with a large variety of engineering materials. Your kids and their friends can have free reign over these tools to build and create to their hearts' content. The ceiling is the limit! Both guided and unguided projects are encouraged.

Unwind:

School can make for a long day for some kids. We have comfortable chairs and inviting areas to take a break and relax for a bit between activities.
